

"I felt stuck. They helped me move forward."

Sammy, a Hearing Australia client
through the Social Purpose Program

Sammy was struggling to hear. He didn't qualify for government support and found it difficult to secure work. Through Hearing Australia's Social Purpose Program, he received fully funded hearing aids and support. Today, he's back at work.

If you're currently unemployed, have a Health Care Card, and need hearing aids, you may be eligible for support. We can also arrange an interpreter at no cost if required.

Talk to us today.
